

# Contractors Health & Safety Policy

Alraiedah Underwater LTD is committed to maintaining the highest standards of health and safety not only for our employees but also for our contractors. This policy outlines our expectations for contractors working on behalf of our company.

## Scope of Work:

Contractors must comply with all company policies and relevant regulations, ensuring proper planning, risk assessment, and adherence to safe work practices.

## Training Requirements:

Contractors must undergo site and vessel inductions as required, with specific training provided based on the nature of their work and level of access to company vessels.

## Work Related Requirements:

All work must be planned and executed in accordance with a safe system of work, including method statements, risk assessments, and permits to work where necessary.

## Emergency Preparedness:

Contractors must be familiar with emergency procedures and safety arrangements, reporting any incidents or hazards promptly to designated personnel.

## Responsibility:

The responsibility for ensuring compliance with this policy rests with both the contractors themselves and the management team of Alraiedah Underwater LTD, who must ensure that contractors are adequately trained and adhere to all safety requirements.
